ALL RACES WILL CONTEST. Races Arranged Between Representatives of Foreign Lands at the Fair.

Everybody who has visited the great Boer War spectacle has been especially interested in the very excellent races that form a prelude to the battle scenes.

There are races between Basutos on Basuto ponies, Boers in four-in-hand Cape carts. Horse racing between Britons and Boers, and international races between Americans, Canadians, Australians and very utmost to win. The management very utmost to win. The management realizing the immense enthusiasm and pleasure that these races creete, has accepted and challenged the entire Fair grounds, including Japs and Igorrotes; the first series was between the Jinricksha boys of Japan and the Kaffirs of South Africa with their "rickshas," in which the Japs wen.

NEW COTTON COMPRESS SHOWN. Claimed That Process Will Aid

A cotton compress which it is claimed will revolutionize the cotton industry of the country and give manufactured cotton to the consumer at materially reduced prices and still leave a large margin of profit for all concerned, is on exhibit in the south end of the Palace of Agricul-

The compressing of cotton has always been most expensive and requires much money and time. The machinery is bulky and costly and the handling of the cotton crop after it has left the gin reduces materially the income of the cotton planter. The compress for which so much is claimed compresses the cetton immediately as it leaves the gin. This obviates the pressing of the cotton and the additional expense of transfer from the gin to the compresses.

By means of it ginning and compressing will practically be one process, and it is claimed millions in profits will be added to the cotton industry of the South.

The exhibit will represent the lending Belgian horse breeders. The entries made by Mr. Van Schelle are already in this country, having been brought to Illinois a few days ago to await the completion of the barns which the Exoustion Company is having erected for the use of exhibitors in the Horse Show.

Commissioner Van Schelle has had extended experience in live-stock breeding and in exposition work. Colonel Mills, Chief of the Department of Live Stock, products that the exhibit of Bigian drait horses at the Exposition will not only be the largest in numbers out the best ever displayed in America.

MANY ENTRIES FOR HORSE SHOW.

Competition in Harness Steeds Will Be Confined to America. The exhibits in the World's Fair Horse Show of guited saddle horses and light and heavy harness horses will be the greatest ever made in the history of the breeding of these classes of animals in America. The liberal prizes offered by the Exposition Company and the prestice which awards will give have induced the best breeders in the country to enter the choicest of their stables in competition.

The entry list already surpasses any ever made in any horse show, and large additions are being received every day by the Live-Stock Department. Owners who have taken the bine ribbon of excellence in all important events of this kind in different parts of the country have sent in filled entry bianks, with practically all of their prize animals in competition.

The World's Fair Horse Show will be national and international in its character, but the saddle and the harness horses have reached the greatest excelence in America, and the competition will be confined almost, if not altogether, exclusively to breeders and owners of this country. The show for harness and saddle horses will be national in every way. The entry list shows that competition will be had from Maine to California. createst ever made in the history of the
